

## FORCE-ON-FORCE GLOVES

### PROTECTION MEETS PRECISION

The WARQ Force-on-Force gloves offer enhanced impact protection while maintaining high dexterity for training. With impact-resistant padding, an optimized trigger finger for precision, and a secure velcro closure, these gloves deliver the perfect balance of protection, grip, and mobility for demanding scenarios.

### KEY FEATURES

- **Enhanced Protection:** Designed with reinforced padding across critical areas like the back of the hand, knuckles, and fingers, offering superior protection from impacts during intense force-on-force training. These gloves keep your hands shielded while maintaining essential flexibility where you need it most.
- **Flexibility and Dexterity:** Engineered for smooth, unhindered movement, with flexible materials that allow for maximum finger mobility, ensuring precision and control during shooting exercises.
- **Optimized Trigger Finger:** Featuring lightweight padding on the trigger finger, allowing for precise control and accuracy while maintaining protection during a dynamic force-on-force training scenarios.
- **Reliable Grip:** High-friction palm materials provide a secure grip in various conditions, ensuring control over firearms and equipment.
- **Quick and Secure Fit:** The adjustable Velcro wrist closure offers a snug, secure fit, ensuring the gloves stay in place during active and dynamic movements.
